

About the Farm

Serving Northern New Jersey for over 100 years

The Kuehm Farm dates back to 1894 when the property was purchased by the first of five generations to own and operate the farm located in Wayne, NJ. Farms View originated as a roadside stand with produce displayed on a picnic table on the side lawn. The business has since evolved to include a 40' x 80' Farm Market and attached greenhouse. During the peak summer growing season, over 65 varieties of non-GMO fruits and vegetables are picked daily for our Farm Market. Eight greenhouses are full of seedlings by the middle of March each year as we prepare to open our Garden Center for the spring season.

Farms View offers something for every season: fresh produce, a wide range of plants, gardening supplies, specialty food items, gifts, and more! In the fall, visitors can enjoy hayrides to the pumpkin patch plus a wide selection of pre-picked pumpkins, mums, and fall decor. In the winter, Christmas trees, wreaths, grave blankets, gift baskets, gifts, and other decorations are available. Our barnyard animals are also popular and are here and waiting to meet our visitors!

New Jersey Century Farm

In 1996, Farms View was awarded [The Century Farm Award](#) by the New Jersey Agricultural Society, an award given annually to only one farm. The award is presented to a New Jersey farm that has been in the same family and operational for at least 100 years. We are thankful for the years our farm has been in business and we are looking forward to serving our patrons for many years to come!
