

Garden Center & Greenhouses

Farms View offers an extensive selection of plants and gardening supplies in our Garden Center. Our eight greenhouses are full of seedlings before we open so we can offer beautiful plants for the growing season!

Let us Design Your Planters!

As an added bonus to our customers, we will plant your planters for FREE with the purchase of our supplies! Your planters must be emptied and cleaned before you bring them to us for new plantings. We can also help you put together and make arrangements for special occasions that will last the entire growing season.
